The medical club is an organization designed to stimulate the interests of those students who wish to study in some field related to medicine upon graduation of senior high school. The club attempts to achieve this stimulation through speakers learned in the art of medical science. Through contact with the professional field we may decide whether we are truly interested in medical arts, while learning many interesting facts concerned with medicine.

In addition to his study in school each student is required to conduct a "supervised farming program" where he puts into actual practice the farming knowledge gained in the classroom. The teacher makes frequent visits to the boy's home farm, supervising and helping with the development of his program. Boys usually start as freshmen with small enterprises, such as a few pigs, a brood sow, some

calves, and an acre or two of crops. As they advance in their work, they are encouraged to expand their farming programs so that by the time they have completed high school they will have built up an investment in farming large enough to permit them to farm on a full-time basis, or, as is frequently the case, to permit them to enter upon a sound partnership agreement with their parents.

The boys pictured below were the boys we felt would benefit most by offering to them the advanced course, Architectural Drawing. These boys excelled in Mechanical drawing, which required many combinations of skills, including speed and accuracy and, above all, the ability to apply themselves to a difficult and tedious task. We know that Arkansas Senior High will give to our community and our country many worthwhile individuals. Within this group of boys, below, we strongly feel we will give to all some excellent Engineers, Architects, and Draftsmen.

"ASK THE MAN WHO HAS ONE"

Probably the best way to find out about a bank and its services is to ask the person who has a loan or deposit account.

We gladly refer you to the more than 17,500 depositors and 5,600 loan accounts on our books.

It has always been our purpose to "do for you anything a good bank should do." We're interested in you and your success. What can we do to help?
